Grand Junction, Colorado, June 1, 2007 – CoorsTek, Inc., the largest technical ceramics manufacturer in North America and a long-time supplier to the electronics industry, announced today that it had received an Outstanding Supplier Award for the second consecutive year from global sensor components manufacturer, Kavlico Corporation.

Every Kavlico supplier receives monthly reviews of specific performance ratings including quality, on-time performance, service and pricing. “Quality is the highest ranking element of our overall supplier rating,” stated Scott Aldridge, Director of Supply Chain Management for Kavlico Corporation. “In 2006, CoorsTek averaged a 96% overall rating and consistently ranks among the highest of our diverse supplier list,” he continued.

“We are proud to be recognized by Kavlico as a valued business partner,” said Doug Coors, Vice President of Operations for CoorsTek. “This award further validates the investment CoorsTek has made in quality, organization and manufacturing refinements,” he continued, speaking of the CoorsTek OpX™ operational excellence program which combines Six Sigma, lean manufacturing, and other proven methodologies to optimize operations.

In addition to the award, CoorsTek was chosen for a long-term contract to supply ceramic components for capacitive pressure sensors and for multi-layer ceramic substrates.

About Kavlico:

Kavlico is an operation of Custom Sensors & Technologies (CST) which is a global business unit of Schneider Electric. Kavlico is a leading manufacturer of pressure, position (LVDT & RVDT), force, level, tilt, media quality, and other specialty sensors and transducers for the transportation, industrial, and aerospace & defense markets. For more information, visit www.kavlico.com.

About Custom Sensors & Technologies:

Headquartered in Moorpark, Ca, Custom Sensors & Technologies (CST), is a global business unit of Schneider Electric and is comprised of the industry-leading brands of Crouzet, Kavlico, Crydom, as well as the former divisions of BEI technologies, including Newall and Systron Donner. CST provides sensors, controls, and actuation products for the transportation, industrial and aerospace & defense markets. For more information, visit www.cst.schneider-electric.com.

About Schneider Electric:

Schneider Electric is the world's power and control specialist. Through its world-class brands, Merlin Gerin, Square D, and Telemecanique, Schneider electric anticipates and satisfies customers' requirements in the residential, building, industry and energy and infrastructure markets. With over 100,000 employees and operations in 190 countries, Schneider Electric generated 13.7 billion in 2006 through 15,000 sales outlets. For more, visit www.schneider-electric.com.

About CoorsTek:

CoorsTek is the largest technical ceramics manufacturer in North America and has facilities in Europe and Asia. CoorsTek supplies critical components and complete assemblies for medical, automotive, semiconductor, aerospace, electronic, power generation, telecommunication, and other high-technology applications. Utilizing advanced material technologies, the company's engineered solutions enable its customers' products to overcome technological barriers and improve performance. For more information about CoorsTek, please visit the Company's website at www.coorstek.com.
